Profile

I am a sixth-semester student majoring in Informatics Engineering at Telkom Institute of Technology Purwokerto. I have experience in the IT field and a strong interest in various IT disciplines, including software development and data analysis. I have successfully led a team project to develop a mobile application for campus navigation. I also possess strong adaptability, critical thinking, and communication skills.

Education

Telkom Institute of Technology Purwokerto – Banyumas, Central Java   2021-Present
Ungraduated student of Informatics Engineering, GPA: 3.88/4.0
- Activities: Served as a teaching assistant and lab assistant for one year, active member of the campus esports organization, part of the new students admission comitte, and lead the campus PKM (Program Kreativitas Mahasiswa) team.

MSIB Bangkit Academy Batch 2 – Indonesia   2023-2024
Mobile Development cohort
- Activities: Completed all learning modules and achieved maximum output in each module, studied both soft skills and hard skills, developed comprehensive project as part of the curriculum, and lead the final project team and achived a high score for the final project.

Experience

IT Support, Multinasional Company SKF Indonesia - East Jakarta   March – April 2023
- Activities: During my internship at SKF Indonesia, I provided technical support to employees, addressing hardware, software, and network issues. This included installing, configuring, and maintaining computer systems, printers, and other IT equipment. I assisted in troubleshooting and resolving IT-related problems through various channels such as phone, email, and in-person support. Additionally, I participated in setting up and configuring new user accounts and access permissions. I was also responsible for conducting inventory management of IT assets, ensuring accurate records were maintained. Moreover, I contributed to the implementation of IT security measures, including antivirus updates and system patches. Throughout the internship, I collaborated closely with my IT team members to document standard operating procedures and troubleshooting guides.

Lab Assistant (Database Programming Practicum)   September 2023– February 2024
- Activities: Guided 40 students in database programming practicum sessions, developed learning modules, evaluated student progress, and ensured learning objective.

Lab Assistant (Object-Oriented Programming Practicum)   April – July 2024
- Activities: Guided 160 students in OOP programming practicum sessions, developed learning modules, evaluated student progress, and ensured learning objective.

System Analyst at Rakamin x Klinikgo (Project Based Internship)   May – June 2024
- Activities: analyzed software system requirements for healthcare applications and created comprehensive documentation detailing system analysis and requirements. I collaborated with cross-functional teams to ensure the alignment of system functionalities with client needs. Additionally, I assisted in the design and development of system solutions to enhance healthcare service delivery and participated in regular meetings to review project progress and update stakeholders.

Task Assistance Service Owner and Operator   December 2022 - Present
- Activities: I am the owner and operator of a task assistance service, managing its marketing through Instagram, Telegram, and a dedicated website. This involves creating and maintaining social media accounts, developing marketing strategies to attract clients, and providing high-quality task completion services. My role requires strong organizational skills, effective communication, and the ability to meet deadlines while ensuring customer satisfaction.
